

Madison

I just want to thank you guys for what you do. I hope you know how meaningful it is! I listened to all 14 Wheel of Time books in 12.5 weeks. Of course the story is gripping, but the two of you brought the characters to life, and made knowing this story possible for this very busy mom.

Before I had kids I was such a bookworm, but life after kids, well.. I'm sad to say that in the past 8 years I only read a handful of books for fun. In 2019 I decided to take back reading! Reading is such great self care. Audiobooks were the answer for me! The everyday commute, folding laundry, cooking dinner.. I always have my books going! It may sound cheesy, but everyday can be magical when there are incredible stories to look forward to.

I DO still want to "retrain" myself to read physical books, but I don't think I'll ever lose my love for audiobooks now! Thanks to audiobooks I was about to read 32 books in 2019, and my goal for 2020 is 50!

Michael Kramer and Kate Reading are easily my favorite narrators, but some others that have brought my favorite stories to life are Peter Kenny and Steven Pacey! My favorite audiobook story? Going to a terrible movie with my kids that I had ZERO interest in, and listening to an audiobook with well hidden airpods the whole time...

I know you don't know me, but I just love you guys! Thank you!
